(WASHINGTON) ----- On the morning of the United States Senate's vote on the Cut, Cap, and Balance bill, Congressman Allen West (FL-22) calls upon Florida Senators Bill Nelson, Marco Rubio and the entire United States Senate to follow the bipartisan lead of the House of Representatives and pass this legislation.

"It has been 813 days since United States Senate Democrats passed a budget, which is a constitutional responsibility," West said. "The time has come for the Senate to redeem its credibility and vote for the only plan that ensures our nation does not default on our creditors, provides spending control measures aiming to resolve our deficit addition, and promotes fiscal discipline. A failure to pass Cut, Cap and Balance will once again confirm Senate Democrats are failing in their constitutional and moral responsibilities to the American People."
